CHICKENPOX

We have begun the term with a number of students away with chickenpox. According to the Ministry of Health Infectious Diseases Guidelines:

- Early signs are a fever and spots with a blister on top of each spot.
- The child is infectious from up to 5 days before appearance of the rash until lesions have crusted (usually about 5 days).
- Time between exposure and sickness is 13-17 days.
- This disease is spread by coughing and sneezing and by direct contact with weeping blisters.
- Exclusion from school is approximately a week from the date of the appearance of the rash.

If you are unsure whether your child should return to school, please see your family doctor.

A copy of the Infectious Diseases Guidelines can be found on the school website under the Health & Medical red tab.
